

Title	Achievements and targets in breeding of horticultural plants		
Code	3GN18NAK12M		
Prerequisites			
Description	The aim of the subject is to provide basic knowledge of breeding, cultivating and production gardening engineers about the aspirations, goals, expected results and trends of domestic and foreign breeders. The goal is to create a bridge that links the basic knowledge of textbooks with the problems of current breeding. As a result, we rely on the knowledge of lecturers who personally participate in various fields of plant breeding, in the development of cultivars of different plant species.		
Lecturer	Dr. Júlia Halász, Dr. Attila Hegedűs, Dr. Zsuzsanna György		
Semester	3rd, fall	Contact hours/week	1+2
Level	MSc	ECTS	4
Teaching and Learning Methods:			
Reading:			
Assessment:	exam
